Council Member Corner

This Month: A Message from Council Member Jerry Donald

I am pleased to contribute information to the residents of Frederick County on this first anniversary of Charter Government. It has been an incredibly busy year for the County Council. It has been a tremendous honor being elected to serve as the first council member from District 1. We have enacted several bills and deliberated on various legislative matters. However I want to take this opportunity to discuss some issues I believe are important to the people of Frederick County.

I have introduced a bill titled, “Modifying Permitted Uses in Waterbody Buffers” (Bill 15-12). It had its public hearing on Tuesday, November 3. This bill restricts what can be done in the area immediately surrounding a body of water thereby allowing this buffer a better opportunity to keep our water clean. It will eliminate future building of open shelters, pole type structures, recreational equipment, or impervious surfaces within the waterbody buffer area. As one member of the public stated, future generations will never look back and say they wish we didn’t do more to preserve our streams and rivers.

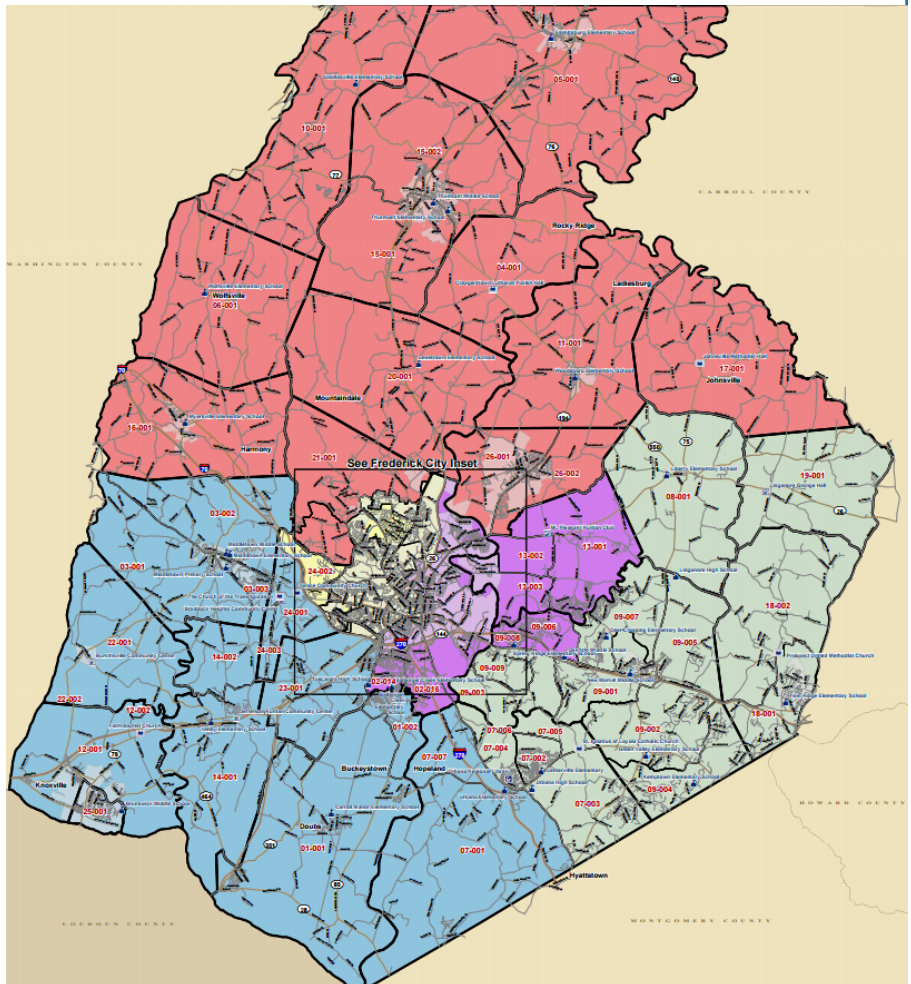

On November 2, County Executive Jan Gardner and I hosted a meeting in Point of Rocks to brief the public on Frederick County’s plans for addressing a fire or hazardous spill along the railroad. We had an attendance of about 60 people, many of whom participated in the question and answer session and then stayed after the meeting for further discussion. I hope that other areas and towns in Frederick County will be interested in having a similar public safety meeting.

In closing, I want to thank each one of you for caring about Frederick County and I want to encourage you to get involved and stay involved in our governmental processes.
